FUNERAL FEATHERS.—TO UNDERTAKERS, UPHOLSTERERS, CABINET-MAKERS, and BUILDERS.—G. SHADBOLT and Co., Funeral Feathermen, beg to inform the trade that they have REMOVED their FEATHER BUSINESS from Church-street, Soho, to No. 8, Walbrook, City, near the Mansion House, where all orders will in future be received, and punctually attended to in town or country.

8, Walbrook, August 8th, 1849.

BUILDERS AND CONTRACTORS.

TARPAULINS for COVERING ROOFS during Repairs, SCAFFOLD CORD and every description of ROPE used by Builders upon the lowest terms. Marquees and temporary awnings on sale or hire. Orders post paid receive the most prompt attention.—WILLIAM PIGGOTT, 13, Fore Street, City, Manufacturer, by Appointment, to Her Majesty's Honourable Board of Ordnance.

MARKET WHARF, REGENT'S-PARK BASIN.—Messrs. MARTIN and WOOD (late Soole and Martin) solicit the attention of Builders, Masons, and others, to their stock of Portland, York, and Derby Stone; also Bangor Slates, Lime, Cement, Plaster, Bricks, Tiles, Laths, Fire goods, Fire-stone, &c., sold at the lowest possible prices for Cash. Portland Headstones, Ledgers, Steps, Landings, &c., cut to order on the shortest notice. Tarpaulings let on hire. A Stock of Northern Drain Pipes, Syphons, &c., always on hand. Mortar, Lime and Chalk in Fine State, &c.

BATH STONE.—RANDELL and SAUNDERS, QUARRYMEN and STONE MERCHANTS. The most approved kinds of Bath Freestone supplied to all parts of the kingdom. Depôts at the Great Western Railway Stations, PADDINGTON, CORSHAM, BOX, BATH, and BASLNOL. R. and S. particularly invite the attention of Architects and Builders to their Corsham Down stone, which is strong and sound in quality, is of beautiful colour and texture, and works much cheaper than any other stone. Prices, with cost of carriage to any locality specified, furnished on application to Randell and Saunders, 14, Orange Grove, Bath.

ANSTONE STONE WHARF, STANGATE.—Mr. GRISSELL has the honour to inform Architects and Builders that he has made arrangements for the SUPPLY of the ANSTONE STONE for all building purposes, and which can now be seen at the above wharf by application to Mr. W. G. WARDLE, of whom every information can be obtained.

N.B. The stone used in the erection of the New Houses of Parliament was supplied EXCLUSIVELY from these quarries.

ANSTON STONE, used for Building the New Houses of Parliament.—W. WRIGHT and Co. beg to inform Architects, Engineers, Builders, and others, the Anston Stone can be supplied in any quantity on the shortest notice. This valuable stone, so celebrated for its durability, colour, and texture, is well known, having been selected in preference to all others, by the Commissioners of Woods and Forests, for building the New Houses of Parliament. It is very superior for Monuments, Tombs, &c. &c.

W. Wright and Co. have made arrangements to have a stock always on hand at Brine's Marble and Stone Wharf, Hornsey-lane, Maiden-lane, King's-cross.—Any further information can be obtained on application to W. WRIGHT and Co., Anston, near Sheffield; or to T. SHARP, their Sole Agent in London, 37, Burton-crescent.

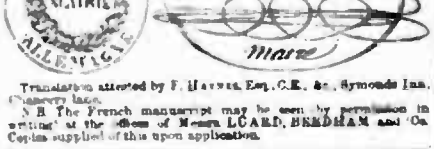
NOTICE to PURCHASERS of CAEN STONE.

Translation of a CERTIFICATE from the Mayor of Allemagne, Department of Calvados, Normandy, relative to the propriety of the Caen Stone Quarries:—

"I, the Mayor of Allemagne, Department of Calvados, undersigned, do hereby certify to all who are interested in it, that it is an error and gross falsehood, as certain persons have reported, 'That the quarries of Allemagne belong to, and are leased from, the Government of France, and the local authorities of the Department of Calvados.' Neither the one or the other have any right or interest whatsoever in the said land or quarries.

"I hereby further certify, that the greater part of these quarries are worked by Messrs. Leard and Company, who are the principal proprietors, and Mons. Jobert, who is also a proprietor; the remainder are worked by smaller quarrymen of the neighbourhood, who sell their produce to certain dealers for exportation to England as it is required.

"Executed at Allemagne, this 9th May, 1849.



Translation attested by F. HARPER, Esq., C.E., &c., Symonds Inn, Chancery lane.

N.B. The French manuscript may be seen by permission in writing at the offices of Messrs. LEARD, BERDHAM and Co. Certificates supplied of this upon application.

CAEN and AUBIGNY STONE.—LEARD, BERDHAM, and Co. beg respectfully to recommend purchasers of Caen stone to require a guarantee of those who profess to be "quarry proprietors" and importers, that they are selling only such Caen stone as is suitable for EXTERNAL WORKS.—this being the only way by which architects and builders can be safe from the recurrence of certain failures, by its indeterminate use. It is now generally known that the bottom beds in the Caen quarries, as well as in the Portland, are only fit for inside purposes.

L., B., and Co. continue their efforts to maintain the character of their Caen stone, by careful selection, and can afford to behold without alarm the absurd, false, and futile effusions of weak-minded competitors.

L., B., and Co. have a large seasoned stock of Caen and Aubigny stone at their general depôt at Caen Wharf, Rotherhithe, Vauxhall bridge, Millbank, Battle-bridge, Paddington, and Kensington Gravel.

Shipments direct from the quarries to any port in the United Kingdom.—Offices, 18, South-wark-square, Borough, and 179, Rotherithe-street.

CAEN STONE, from the first Quarries of ALlemagne. Depôt at the Whitby and Scotch Wharf, 14, Fore-street, Limehouse.—P. FOUCARD, quai des Abattoirs, Caen, proprietaire de Carrières à Allemagne, begs leave to inform Builders, Architects, and others, that he has, on the above-mentioned wharf, the best stone ready to meet the demands of purchasers.—Contracts taken for any quantities.—Orders received by Mr. BABCHET, at 28, Stoney-street, Borough Market.—Cargoes shipped to order, from Caen, to any port.

CAEN STONE DEPOT.—"ORIGINAL SUPERANCE" NORWAY WHARF, GREENWICH.—W. TUCKWELL, Caen Stone Quarry Proprietor at Allemagne, near Caen, respectfully solicits the attention of architects, builders, clerks of works, masons, and others, to the SELECTED STOCK of CAEN STONE on his wharf at Greenwich, and from his long practical experience in the various qualities of Caen stone, he confidently states that this Caen stone cannot be surpassed.

W. TUCKWELL has always at his chantier, on the quai at Caen, a large quantity ready for shipment when required. Orders received at the wharf, as above, also at the offices of Mr. R. A. WITHALL, Architect, 69, Chancery-lane, where samples and prices, with further information, may be obtained.

N.B. Samples may also be seen at the office of "The Builder."

Note.—The statements put forth by other proprietors of Caen Stone in note W. T., with all respect, to observe that he cannot think of reading his claims as the owner of a superior quality of stone, on the certification of magistrates or other public officers of Normandy, who however distinguished by character and station, can be no evidence on such matters. As the proprietor of Caen Oolite of the first quality, he trusts to the sound judgment and experience of those English architects, builders, &c., who may honour him with their preference for every guarantee and enlargement recommendation.

IRISH SLATES and MARBLES.—SLATE SLABS.—Upwards of 1,500 Sawn Slabs have just been landed from the Island of Valentia. A large quantity also on hand, Green and Black Connemara Marble slabs on sale, at the VALENTIA SLATE YARD, MILLBANK-STREET.—Some of the blocks of Black are from 12 to 20 feet in length.

VALENTIA SLAB COMPANY.—"The Atlas," No. 1061, SAWN SLABS.—"The Geraldine," No. 1, SAWN SLABS.—The above carpets, of various thicknesses, now in course of delivery, at the Valentia Slate Yard, Millbank-street, Westminster.

STIRLING'S BELVEDERE SLATE WORKS, Belvedere-road, Lambeth.—A reduced list of prices of the best WELCH SLATE SLABS, planed both faces, will be sent on application (post paid) being made, and inclosing a postage stamp. The prices are under those advertised for inferior slates.

PIMLICO SLATE WORKS.—GREAT REDUCTION in the PRICE of SLATE.—Mr. MAGNUS has the pleasure to publish the following reduced prices for Welsh Slate Slabs of the finest quality, with sawn edges, and planed both faces:—

	Thick.						
	¾ in.	1 in.	1¼ in.	1½ in.	1¾ in.	2 in.	
	d.	d.	d.	d.	d.	d.	
Under 4 ft. long, or 3 ft. wide	3½	5	6	7	9	12	1 ft. sup.
Ditto 6 ft. do. or 3 ft. do.	6	8½	7	8	10	14	do.
Ditto 7 ft. do. or 3 ft. do.	6½	9½	8	9	10½	15	do.
Ditto 7 ft. do. or 3 ft. do.	8	7	9	10	11	18	do.

Larger Slabs in proportion.

	Thick.						
	¾ in.	1 in.	1¼ in.	1½ in.	1¾ in.	2 in.	
	d.	d.	d.	d.	d.	d.	
Cutting to order	1	1	1½	1½	1½	2	1 ft. sup.

FURTHER REDUCTION IN THE PRICE OF CISTERNS.

Cisterns above 100 gallons, planed both faces, inch thick, grooved and bolted, 1s. only per foot superficial, or 2s. per foot cube (outside dimensions). Fixing within five miles of the manufactory, 3d. per foot superficial, or 6d. per foot cube. Enamelled boxed Chimney-pieces, variously marbled, hitherto priced at GOTHIC NEW reduced to 25s. each. The above prices are all net to the trade.

Mr. Magnus will send his book of Drawings of Chimney-pieces, and printed price-list of ditto, free to any part of the country, on receipt of 2s. in postage stamps (to be deducted from first order received), and which will be subject to a very liberal discount to the trade.—Address, 36, Upper Belgrave-place, Pimlico.

SAMUEL CUNDY, Mason and Builder, PIMLICO MARBLE and STONE WORKS, Belgrave Wharf, Pimlico, begs to inform ARCHITECTS and the PUBLIC that he has availed himself of improvements in his MACHINERY, by means of which he is enabled to produce GOTHIC WINDOW MOULDINGS, PANNELS, &c. &c., at a very cheap rate, out of a superior stone from the west of England, as durable as any soft stone, and particularly sound.

S. C. has an economical method of dressing the above stone over, which produces, by the action of the atmosphere, a surface of crystalline hardness, and improves the colour.

JOINTS from ¾ upwards. Specimens on view of the various styles.

First-rate ARTISTS retained for SCULPTURED and CARVED Works.

Vein Marble Chimney-pieces, of the best quality of material and workmanship, by improved machinery ... 40s.
Stone ditto, from ... 6l.
A variety on view in stock.

MEMORIAL CROSSES, MONUMENTS, TOMBS, HEAD STONES, &c., in great variety of design.

RESTORATION of CHURCHES. SAMUEL CUNDY having had much practice in this branch, is desirous of Estimating for Restorations.

CLERKS of WORKS have their particular attention called to the above establishment. Casts of Arms, Decorated Panels, and other enriched works, promptly executed.

Every description of Stone or Granite work prepared, ready for fixing.—Delivered at the various Railways, and carefully packed in trucks.—Pimlico Marble and Stone Works, Belgrave Wharf, Pimlico.

CROGGON'S PATENT ASPHALTE ROOFING FELT and INODOROUS FELT, for DAMP WALLS. Sold in rolls, 24 inches wide; price one penny per square foot. Also, Dry Hair Felt for preventing the radiation of heat and deadening sound. Samples, directions, and testimonials sent by post, on application to CROGGON and Co., No. 2, Bowgate hill.

PAVING, 2s. 9d. PER SQUARE YARD. Basements, Foot-walks, Malt-houses, Corn Stores, Floors of Warehouses, and every description of Pavement laid down at the above low price, and the work guaranteed.—Apply to JOHN L. KINGWELL, PHOENICIAN BITUMEN PAVEMENT OFFICE, 14, JOHN-STREET, ADELPHI.—N.B. Country Agents and Railway Engineers and Contractors supplied with the best bitumen for covering bridges and arches.

DAMP and GASEOUS EXHALATIONS. SANITARY MEASURES.

MEMBERS of BOARDS of HEALTH are especially directed to the most EFFECTIVE MEANS which they can adopt to prevent the injurious and often FATAL EFFECTS upon the HEALTH of the COMMUNITY, arising from exhalations that are produced from moisture, decayed animal matter (as in graveyards), stagnant water, and collections of putrid refuse, tending to produce a miasmatic state of atmosphere. In situations so affected, the impervious quality of the ASPHALTE of SEYSSEL renders it the most perfect PAVEMENT or COVERING that can be rolled upon for permanently arresting, and thereby preventing, the rising of moisture and the escape of noxious vapours. The present extensive application of this material for covering roofs, terraces, and arches, for preventing the percolation of wet, is strong evidence of its effectiveness for the above purposes, which is further confirmed by the following extract from the Report of the COMMISSIONERS on the FINE ARTS.—T. FARRELL, Secretary.

Seyssel Asphalte Company, Stangate, London.

"In 1839, I superintended the construction of a house of three stories on the Lac d'Enghien. The foundation of the building is constantly in water, about 12½ inches below the level of the ground floor. The entire horizontal surface of the external and internal walls was covered at the level of the internal ground floor with a layer of SEYSSEL ASPHALTE, less than half an inch thick, over which coarse sand was spread. Since the above date, no trace of damp has shown itself round the walls of the lower story, which are for the most part painted in oil, of a grey stone colour. It is well known that the least moisture produces round spots, darker or lighter, on walls so painted. Yet the paintwork of the door, resting on the said itself, is only about 2½ inches above the external surface of the soil, and only 10½ inches at the utmost, above that of the sheet of water. The layer of Asphalte having been BROKEN AND REMOVED, for the purpose of inserting the sills of two doors, spots indicating the presence of damp have been since remarked at the base of the door-posts."

This method has been adopted at the new Houses of Parliament.

GRAY STONE and WHITE FLAME LIME WORKS, BEWLAY CLIFF, on the Medway, KENT.—GEORGE POTTER and CO., having added the old and well-known business at the Pavilion Wharf, Hart-street, Blackfriars, and Gas Company's Yard, to their former town establishments, are ready to supply Contractors, Builders, Gas Companies and the Trade generally, with Gray Stone, White Flame, and Chalk Lime, upon the usual terms. Annexed is a list of their wharfs:—

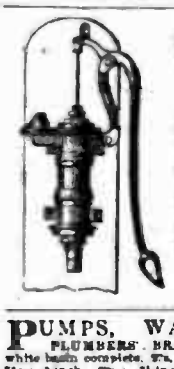
City.—Pavilion Wharf, Earl-street, Blackfriars.
Pimlico.—Grosvenor Basin.
Chelsea.—Dreed's Wharf.
Paddington.—No. 13, North Wharf (adjoining Great Western Terminus).
Camden-town.—James-street.
City-road Basin.—Wharf-road.

SAMUEL HOOD and Co., Castings Warehouse, 31, Upper Thames-street. REGISTERED STABLE FITTINGS. Enamelled Mangers, with double hay-racks, or with enamelled water-cistern on one side.

TO ARCHITECTS, BUILDERS, AND BRICK-MAKERS.

PUMPS of Superior CONSTRUCTION, bored perfectly true by improved machinery, in various plain and ornamental patterns for Conservatories, Squares, Market Places, Roads, Gardens, and for Liquid Manure. BRICK-MAKERS' PUMPS, in Wrought and Cast Iron. HYDRAULIC LIFT PUMPS, and ENGINES for Wells of any depth. SINGLE and DOUBLE PUMPS up to twelve-inch bore, kept for Hire.

BENJ. FOWLER (late of 63, Dorset-street), removed to the new Factory, Whitefriars-street, Fleet-street.



TO BUILDERS AND PLUMBERS.

THE attention of the Trade is called to

JOHN WARNER & SONS' PATENT VIBRATING STANDARD PUMP,

which is recommended for the simplicity of its construction, and the ease with which it works.

By the introduction of the vibrating standard the cumbrous carriage and expensive slings and guides are rendered unnecessary, rendering the price considerably less than pumps made on the old plan.

Deep and Water Engines for raising fluids from a depth not exceeding 30 feet; also, Garden Engines constructed on the same principle.

JOHN WARNER & SONS,
8, Cornhill, Jewin-street, London,
Manufacturers and Patentees.

PUMPS, WATER-CLOSETS, and PLUMBERS' BRASSWORK.—Pan water-closets, with white basin complete, 27s. each; 3-inch lift pumps, 6l.; 2½-inch, 7l.; 3-inch, 8l.; 3½ inch, 11l. Well pumps and cocks for plumbers and engineers, of every description.—THOMAS MILLINGTON'S Manufactory, 27, Blackfriars Without, London.

ECONOMIC WATER CLOSET FOR SANITARY PURPOSES.

The advantages of this closet are:—1st. That it can be fixed in any part of a building, without reference to the situation of the cistern, there being no wire or cranks to connect it.

2ndly. By an arrangement of the valve, the water can never be left running, thereby preventing waste.

3rdly. The basin and trap being made of iron, cannot be broken by frost, as is commonly the case with earthenware.

A Self-acting Closet, possessing the above advantages, and suitable for Railway Stations and Public Buildings, is also manufactured by STICK and SON, Manufacturers of Plumbers' Brasswork, BIRMINGHAM.

SANITARY IMPROVEMENT.—Perfect freedom from Stench or Noxious Vapours arising from Sewers, Drains, &c., is insured by the use of

BUNNETT'S
PATENT SELF-ACTING EFFLUVIA TRAPS,

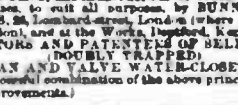
Adapted for Streets, Public Buildings, Dwelling Houses, Factories, Stables, &c.

The above most important improvement has been extensively tried in the City, and many large provincial towns, with perfect success. They are cheap, durable, perfectly SELF ACTING and SELF-CLEANSING, and cannot get out of order. Manufactured in various sizes, to suit all purposes, by BUNNETT and Co., ENGINEERS, 28, Lombard-street, London (where specimens may be seen in action), and at the Works, Deptford, Kent.

INVENTORS AND PATENTEES OF SELF-ACTING (DOUBLY TRAPPED)
PAN AND VALVE WATER-CLOSETS;
(A most successful combination of the above principle, with other patented improvements.)

GLAZED STONE WARE DRAIN PIPES.—TURNER and MOUNTAGUE, Leigh, near Southend, Essex, manufacturers of stone ware drain pipes and drain tiles. Drain pipes and tiles to any pattern.—Orders received at, and executed from Harrow-bridge Wharf, Stratford, Essex; Falcon Wharf, 29, Bankside, Blackfriars, and at their Cement Works, Orchard House, Blackwall.

UNION BROWN STONE POTTERY CHEMICAL APPARATUS, and DRAIN-PIPE MANUFACTORY, 14, Vauxhall-walk, Lambeth. Patronised by Her Majesty's Commissioners of Woods and Forests, and by the Metropolitan Commissioners of Sewers.



WILLIAM NORTHEN, Inventor of Salt GLAZED BROWN STONE SOCKET DRAIN PIPES, in every variety of shape, begs to call the attention of Architects, Surveyors, Contractors, and others to the following list of prices:—

Straight Barrel Pipes, with Socket Joints, in 2-ft. Length				
2-in.	3-in.	4-in.	6-in.	9-in. bore.
3d.	5d.	6d.	9d.	1s. 10d.

Bends and Junctions equally low.

N.B. Drain-pipes of my Manufacture may also be obtained of Messrs. ROSHER, at their Lime Wharf, Albion Wharf, Holland-street, Blackfriars; Millbank-street, Westminster; Kingsland Basin, Kingsland-road; and Limehills, Limehouse; and of Messrs. MARTIN and WOOD, Market Wharf, Regent's Park Basin.

IMPORTANT to the SANITARY MOVEMENT.—PATENT FLUSHING SYPHON BASIN and SELF-ACTING CLOSET CONNECTION.—It is admitted by all, that nothing is more wanted than a trapped water closet, simple, cheap, and effective. The above invention will be found to combine these qualifications. It is complete in itself, without expense of fixing. It has no metal spreader, metal trap, screw, or crank. It directs the whole of the water with great force perpendicularly down the sides of the basin, clearing all before it. It is self-acting, and must cleanse itself on every time of using, without reference to the person using it, without unsealing the trap, thus rendering it particularly suited for asylums, hospitals, manufactories, &c. The price, fitted in stained wood work, with strong well-glazed earthenware stone pan, is only 3l. 5s.

Patentee, STEPHEN GREEN, Imperial Potteries, Lambeth, where architects, builders, and the public can inspect his invention in use. Also may be seen his

CELEBRATED 
DRAIN PIPES.

so highly approved and extensively used by her Majesty's Commissioners of Woods and Forests and the Metropolitan Commissioners of Sewers. Prices the same as common stone-ware.

For Drawings and explanation see "The Builder" of January 20th, and March 31st, 1849.
